

Proceedings of the IX-th International Symposium on Ecology of Fluvial Fishes

Contents

1. An overview of recruitment patterns of roach *Rutilus rutilus* (L.) between 1969 and 2001 in the rivers of England and their influence on population abundance
John Robert Britton, Ian G. Cowx, Stephen N. Axford, Paul A. Frear
2. Assessment of anthropogenic influences on littoral-zone aquatic communities of Lake Texoma, Oklahoma-Texas, USA
Michael A. Eggleton, Keith B. Gido, William J. Matthews, Gary D. Schnell
3. Artificial wetlands – yes or no?
Václav Horák, Stanislav Lusk, Karel Halačka, Věra Lusková
4. Impact of impoundment (1985-2000) on fish assemblages in a large lowland river
Tadeusz Penczak
5. Patterns of fish assemblages in tropical streamlets using SOM algorithm and conventional statistical methods
Tadeusz Penczak, Sovan Lek, Francisco Godinho, Angelo Antonio Agostinho
6. Decline in migratory fish in the Warta River, Poland
Andrzej Kruk
7. Brown trout migration and flow variability
Ondřej Slavík, Luděk Bartoš
8. Changes of ploidy and sexuality status of “*Carassius auratus*” populations in the drainage area of the River Dyje (Czech Republic)
Věra Lusková, Karel Halačka, Lukáš Vetešník, Stanislav Lusk
9. Impact of extreme floods on fishes in rivers and their floodplains
Stanislav Lusk, Petr Hartvich, Karel Halačka, Věra Lusková, Miloš Holub
10. Growth of barbel, *Barbus barbus* (L.) in the upper Warta River, Odra River system
Miroslaw Przybylski, Alicja Boroń, Andrzej Kruk

Short communications

11. Changes in sterlet (*Acipenser ruthenus* L.) catch and length frequency distribution in the Serbian part of the Danube River during the twentieth century
Lenhardt M., Cacic P., Kolarevic J., Mickovic B., Nikcevic M.
12. Alien fish species in the floodplains of the Dyje and the Bodrog rivers
Stanislav Lusk, Jano Koščo, Věra Lusková, Karel Halačka, Peter Košuth
13. Age and growth of European bitterling (*Rhodeus sericeus*) in the Wieprz-Krzna Canal, Poland
Miroslaw Przybylski, Emili García-Berthou
14. Morphometric characteristics and growth of *Carassius auratus* in the lower part of the River Dyje (Czech Republic)
Lukáš Vetešník, Stanislav Lusk, Karel Halačka, Petr Spurný
